## PROJECTS

### UX Human Design Research, UCSC BSOE Undergraduate Website

JANUARY 2020 - MARCH 2020

- Redesigned the BSOE website with a more simplified approach, while still providing responsiveness and efficiency, to address the needs of the users.
- Conducted rounds of evaluative user studies with low and high fidelity prototypes.
- Produced a slide deck and design research report to present to potential stakeholders.

### Management of Technology, Product Research & Design

SEPTEMBER 2019 - MARCH 2020

- Established the vision, mission, and relevant technology of our product/market, and competitive strategy.
- Developed alternative concepts of our product through conceptual design.
- Performed economic and financial modeling to determine the financial feasibility.
- Created a supply chain network to produce and distribute our product.

## WORK EXPERIENCE

### PlayStation/Steele Enterprises, San Mateo — Playtester

GAMING PLATFORM COMPANY

FEBRUARY 2019 - JULY 2019

- Purposefully tested new games and equipment for bugs and design flaws.
- Proactively engaged in system analysis and design in various projects.

### Duc Phuong Tofu, San Jose — Supervisor

VIETNAMESE BAKERY

JANUARY 2015 - SEPTEMBER 2018

- Established positive rapport with customers, upselling products and building a loyal clientele.
- Regularly delivered raw materials from warehouse to kitchen.
- Assisted in accounting responsibilities and financial information.
- Managed closing duties, including restocking items and reconciliation of cash drawer.
