TECHNICAL SKILLS

React.js, React Native, Redux, JavaScript, Python, HTML, CSS, SQL, AWS

PROJECTS

FriendZone   **Live** | **GitHub Repo**

A clone of facebook where users can post and interact with others.

- Using React, Flask, and AWS, We Developed and implemented FriendZone, a Facebook-inspired social media platform, featuring a visually appealing and user-friendly login page resembling the original design.
- Built a dynamic home page allowing users to create and engage with posts, enabling seamless interaction and fostering a sense of community within the platform. Additionally, designed and integrated user profiles, showcasing friends' lists and personalized posts for enhanced social connections.

Zesty   **Live** | **GitHub Repo**

Exotic Japanese Food marketplace

- Using React, Flask, and AWS, I Developed and launched Zesty, an innovative e-commerce platform inspired by Etsy, dedicated to showcasing a wide range of exotic snacks, condiments, soups, and foods from Japan.
- Designed and implemented a comprehensive marketplace that enables users to create and manage listings, engage with products through likes and comments, and seamlessly purchase items via a streamlined cart and checkout process.

WORK EXPERIENCE

Software Engineer Intern   **May 2022 – Feb 2023**

LiveStockCity, Virginia

As a React Native Software engineer intern at LivestockCity, I collaborated closely with the founder to successfully implement the social media functionality within the app.

- Collaborated with the back-end team to seamlessly integrate user sign-up, login, and social feed functionality, enabling users to access and engage with personalized feeds displaying their own posts as well as those made by individuals they follow.
- Implemented features within the social feed, including the ability to like and comment on posts, enhancing user interactivity and fostering a vibrant and engaging social media experience within the LivestockCity app.

Amazon Warehouse Ambassador   **Sep 2014 – Sep 2018**

Amazon, Newark, CA

- Led a team as an Amazon Warehouse Ambassador, ensuring efficient and timely delivery of customer packages by coordinating and supervising the order fulfillment process.
- Collaborated closely with managers, effectively communicating any issues or challenges that arose during operations, ensuring prompt resolution and maintaining a smooth workflow.

EDUCATION

Full Stack Developer | Certificate   App Academy – 2023

Associates | Psychology   Ohlone College – 2019
